

## **Hazgreen Limited - Environmental Policy**

It is Hazgreen's policy to develop, operate and maintain its operations in an environmentally considerate manner. To comply with this policy, the Company will endeavour to meet the following objectives:

- (a) Whenever reasonably practicable, identify and eliminate the threat of any contamination to the environment.
- (b) Whenever possible, control and minimise the use of energy, materials and water.
- (c) As far as economically viable, to re-cycle all materials, packages and other waste.
- (d) Make firm realistic commitment to enhance the environment for employees, clients and the public alike.
- (e) Where the risk of pollution cannot be eliminated, to monitor and tightly control the risk of such an occurrence.

### Implementation

All employees need to understand the actions required to make this policy work. To this end, the Company will: -

- 1) Train and advise all employees of the need to ensure that good environmental practice is considered, observed and maintained.
- 2) Before each work activity, assessing the environmental features to ensure, where possible, manage and control the impact of the work.
- 3) Ensure that all employees are encouraged to reduce, re-use and re-cycle materials with the objective of keeping waste to a minimum.
- 4) Liaise with clients, local authorities, residents and others to ensure that social impact and disturbance are minimised.
- 5) Encourage quiet working processes when working outside normal hours to place measures to prevent and control pollution incidents.
- 6) Review and revise this policy as necessary and at regular intervals.

Review Date: 31<sup>st</sup> March 2025

- 7) Recognise its responsibilities on site or at any of its place of work.
- 8) Carry out work in accordance with relevant statutory provisions in compliance with the “Environmental Protection Act”.
- 9) Implement a good neighbour policy.
- 10) Take measures to control potential noise pollution.
- 11) Not discharge to atmosphere ozone depleting gases such as Halon and CFC’s.
- 12) Removed waste is fully documented in accordance with legislation by registered carriers to licensed recycling centres.
- 13) Protect as appropriate wildlife, habitats, flora and fauna, trees, archaeological and heritage remains.
- 14) Remove archaeological and heritage remains by appropriate and competent organisations.
- 15) Seek to conserve the use of energy, water and paper and promote the use of recycled materials at the workplaces and office location.
- 16) Where applicable, become participating members of considerate contractor schemes.
- 17) Arrange environmental assistance and auditing through its specialist advisers, who will bring to the notice of the management, any deficiencies observed and to provide guidance, information and training.
- 18) Investigate and report environmental incidents.
- 19) Take preventative measures and actions to minimise the risk of re-occurrence.

In order to minimise environmental impacts and safeguard the environment, employees and other persons, the Company aims to promote and maintain a high standard of environmental control by providing safe systems of working and by proper maintenance of all plant and equipment. To achieve this, we require the co-operation and assistance from all employees within the organisation. We also require the co-operation and assistance of all sub-contractors.
